Tip #4 – Look for Free Shipping

As there are 100s of websites to shop from you have to sure you save as much money as possible. One of the best ways is using Coupons for Indian Shopping Websites but another option that works with it is Free Shipping. Maximum websites provide free shipping on 499 or above so always try to buy online when you are ready for an order of about 499 or more. However, some of the websites like [PayTM](#) may offer free shipping on orders of less amount and delivery area. So, before you place an order, always check if Shipping is free.

Tip #5 – Make use of Bank Offers and Wallet Offers

Now a day most of the websites provide Bank offers and wallet payment discounts, which mean if you will make payment from debit card, credit card, online banking, or a wallet, then there will be Cashback given to you. Never let such offers go away because the cash back can be from 5% to 10% up to 1000 rs or even more.
