

**CALLE
SONORA**

CALLE SONORA is a spanish audiovisual company focused on live acoustic and street music recordings.

We make different videos, moving bands and artists to different scenes or locations. There's place for recognized spanish bands (Delafé y las Flores Azules, Fuel Fandango, El Pescao, Izal or Leiva) and emerging bands.

The use of the sequence shot is the sign of our project, with its abundance of realism and perfectly respectful of the spectator to whom he addresses himself. Energy is the key to better videos.

YouTube is our main outlet for spreading our work:

"Like every immediate thing, it's authentic and every authentic thing is imperfect. And in that imperfection, we find beauty which is considered to be something fresh and ephemeral, something that happens in a determined space and time".

(CineandCine)
